Complete Residential IP Intercom Kit
## Model: INTIPRKITBW

Product Overview

The VIP Vision™ Residential IP Intercom Kit is an ideal single monitor/door-station intercom solution for residential applications.

The system comprises a compact, aluminium, flush mount door station and a 7" touchscreen indoor monitor. The door station features a 1.3 megapixel, low-light camera and the intercom kit integrates with most electronic door strikes and sensors.

The door station is operated simply via a single backlit button whilst the indoor monitor uses a touchscreen. The system supports door sensor and door strike integration, remote unlock, missed/placed/received call details, visitor audio/video messaging and group calling functions.

Capabilities of this intercom kit extend beyond the home and into everyday life. Remote connect to your intercom system from anywhere with your Android or iOS device (iPad, iPhone). Answer door bells, unlock your door, take image snapshots and two-way talk - all remotely from your smartphone or tablet.

Specifications - Door Station

System	Main Processor	Embedded Microprocessor
	Operating System	Embedded Linux OS
Camera	Image Sensor	1.0 Megapixel CMOS
	Video Compression	H.264
Audio	Audio Input	Omni-directional Microphone
	Audio Output	Built-in Loudspeaker
	Bidirectional Talk Support	Yes
Design	Backlit Interface	Yes
	Operational Input	Single-press Touch Button
	Card Support	Yes; Built-in NFC Card Reader
	Tamper Detection	Yes
	Vandal Resistant	No
Storage	Memory Capacity	128MB
Network	Ethernet	10M/100Mbps Self-adaptive
	Network Protocol	TCP/IP, SNMP, MDI/MDI-X Self-adaptive
General	Ingress Protection	IP65
	Installation Components	Junction box, mounting kit, weather shield
	Power Input	12VDC
	Power Consumption	Standby < 1W / Operation < 5W
	Dimensions	154 x 114 x 43mm
	Weight	0.60kg

Specifications - Indoor Monitor

System	Main Processor	Embedded Microprocessor
	Operating System	Embedded Linux OS
Video	Display Size	7" Colour TFT LCD
	Display Resolution	SVGA (800 x 480)
	Video Compression	H.264
Audio	Audio Input	Omni-directional Microphone
	Audio Output	Embedded Loudspeaker
	Bidirectional Talk Support	Yes
Design	Operational Input	Resistive Touchscreen / On-unit Soft Keys
	Alarm Input	Yes; 8 Input Channels
Storage	Memory Capacity	4GB MicroSD Card (non-removable)
Network	Ethernet	10M/100Mbps Self-adaptive
	Network Protocol	TCP/IP
Environment	Power Input	12VDC
	Power Consumption	Standby < 1.5W / Operation < 7W
	Dimensions	221 x 154 x 24mm
	Weight	0.80kg
	Operating Environment	-10 ~ +60°C / 10 ~ 90%RH (max.)
