Intelligent Backlit Buttons

- Power
- Melody Mute
- Image Recording

-  TALK: Answer calls from visitor and setup Baby Monitoring
-  MONITORING: Monitor images from door-station
-  DOOR OPEN: Press to open the door while talking to the visitor
-  INTER-PHONE: Call other monitors or an internal communication or paging

Dimension: 235(W) x 128(H) x 25(D) mm

FEATURES >

Picture Recording and Playback*

A single photo is recorded when the "Call" button is pressed on the door-station and stored in the internal memory. When Futuro-SD-Card (optional extra) is inserted in SD4, it records by motion from the door-station camera. This footage can be reviewed from a computer and can be saved as snap shots

**This feature is only available on Futuro-SD4. Futuro-SD4B (Basic) model does not support any recording/playback*

⚙️ **Intelligent Backlit Buttons:** The buttons light up only when the monitor is in use giving the monitor a clean, sophisticated look

⚙️ **Intercommunication:** Allows you to call other monitors in different rooms in private or paging mode

White finish

Dinner is ready

OK!

Black finish

⚙️ **Baby Monitoring:** Baby monitoring feature helps you monitor your baby (Audio only)

⚙️ **Expandable System:** Maximum number of connections is 4 monitors & 3 door-stations using Futuro-CPU4

Conventional Door-station

Futuro Door-station with WDR

FUTURO-CPU4

Connecting to the intercom just got easier !

- Easy and flexible installation: Allows star connection (Max 4 monitors and 3 door-stations)
- Improves Video and Audio quality: Works as a signal repeater
- Energy Saver: Supplies sufficient power to all monitors and door-stations in the system
- Intelligent: Automatically configures and remembers the system setup even after restart
- All in one: All in one unit means simpler wiring & worry free operation
